Dr. Allyson Brooks  
 State Historic Preservation Officer  
 Department of Archaeology and Historic Preservation  
 Washington Department of Community,  
 Trade and Economic Development  
 P.O. Box 48343  
 Olympia, Washington 98504

Dear Dr. Brooks:

TRANSMITTAL OF CULTURAL RESOURCE REVIEW (CRR) AND FINDINGS FOR THE  
 REMEDIATION OF WASTE SITE 600-151, 600 AREA, HANFORD SITE, RICHLAND,  
 WASHINGTON (HCRC# 2009-100-047)

The U.S. Department of Energy Richland Operations Office (RL) is transmitting the enclosed CRR. The Area of Potential Effect (APE) was sent to your office and area Tribes on September 29, 2009. Dr. Rob Whitlam concurred with the APE on September 30, 2009. Yakama Nation cultural staff requested clarification on the association between the Military Base Camp 130 and the anti-aircraft artillery (AAA) batteries stationed around Hanford. They were informed that Military Base Camp 130 was an AAA support facility. No other comments were received.

Based on the literature review and field walk down, subsurface testing will be conducted within three trenches that appear to be dump sites associated with the Military Base Camp. Excavation will follow the same methodology as used in conformance with historic-archaeological investigations conducted for Waste Sites 600-109 and 600-202.

Following subsurface testing the findings and recommendations will be compiled into a cultural resources technical report and submitted to your office.

Pursuant to 36 CFR 800.2(a)(4), RL is providing documentation to support the findings and to involve your office and area Tribes as consulting parties in the National Historic Preservation Act Section 106 Review Process. By copy of this transmittal, area tribes will also receive a copy of the enclosed documentation.

NOV 05 2009

Dr. Allyson Brooks  
10-EMD-0010

-2-

If you need additional information on this CRR, please contact Stephen R. Weil, Director,  
Environmental Management Division, on (509) 372-0879.

Sincerely,

*for* Ray J. Corey, Assistant Manager  
for Safety and Environment
